

Aslan Taheri

Software Engineer

Relevant Experience

Early Career Developer . **The Collab Lab** Aug 2023 – Present

- Working in a team of 4 developers and 3 mentors to develop a smart shopping list application using React for UI development, and Firebase for both database and hosting.

View on GitHub: 

Digital Media Fellow . **Yale University** Aug 2016 – 2019

- The Center for Collaborative Arts and Media (CCAM) is Yale's media laboratory, where I worked on motion capture technologies and immersive user interfaces.

ccam.yale.edu 

Designer . **GOA Architects** May 2018 – Sep 2018

- In collaboration with UN Environment and UN Habitat, I was part of the design team to build the "ELM", an adaptable, off-grid house prototype that would be installed at the UN Headquarters in New York, using next-gen green technology.
